# LPO-50

| | |
|---|---|
| **WEAPON TYPE** | Flame Thrower |
| **MANUFACTURER** | Russian Federation Arsenals |
| **COUNTRY OF ORIGIN** | Russia |

## KEY RECOGNITION FEATURES

Three igniters on muzzle.

## RELEVANT INFO

The LPO-50 flame-thrower consists of a tank group, a hose and a gun group. There are three tanks; on the top of each tank is a pressure-relief valve and a cap for the filling aperture, which also contains the chamber for the pressurising cartridge. Ignition is by means of a slow-burning pyrotechnic cartridge, three of which are grouped below the muzzle. The Chinese Type-74 is a direct copy of this weapon. The parts labelled in the image above are:

**(1)** fuel manifold; **(2)** hose; **(3)** selector lever; **(4)** bipod; **(5)** container for pressure cartridge; **(6)** ignition cartridges.
