

Forgotten Realms: The Complete Series

A complete collection of all the Forgotten Realms novels.

If you enjoy these books, please support the authors for their hard work!

The retail novels remain untouched, but all the non-retail novels have been extensively cleaned up and validated. This includes, but is not limited to:

- Stripped away the digital vandalism done by Calibre-exports and other editing tools
- Removed all inline formatting
- Added custom css
- Use a proper font
- Added proper cover scans
- Layout, paragraphs and text formatting verified against printed version
- Spellchecked, ocr errors corrected, and missing sections restored
- Validated with FlightCrew

If you find any errors/typos/etc. please send me the details and I'll correct them, or if you happen to have a retail version of a non-retail novel in this pack please send me a copy and I'll add it to a future pack update.

v4.x novels that are updated in future pack releases will get their version number updated.

All non-retail novels contain change history in a hidden element on their title page.
