

## SPECIFICATIONS

### POWER RATING

240 watts P.E.P. input in SSB mode. 150 watts DC input in CW or FM.

### WEIGHT

23 pounds

### FREQUENCY RANGE

143 - 149 MHz

### POWER SUPPLY

Self-contained, 117 VAC, 50-60 Hertz. Silicon rectifiers, Computer grade electrolytic capacitors, 100 mfd. filtering at 1050 VDC rating.

### TUBES

1 - 5891B

230 volt, 50-60 Hertz model available on special order.

### DRIVE REQUIREMENTS

6 to 10 watts

Mobile operation on 12 volt DC with Swan Model 14C Converter necessary

### METERING

Cathode Current 0-400 ma and Relative Output

Output coupling: Tuned Link

### DIMENSIONS

13" wide X 5-3/4" high X 10-3/4" deep

Transmit-Receive relay control for operation with transceiver
