IEC 60915

(Second edition - 2006)

Capacitors and resistors for use in electronic equipment –

Preferred dimensions of shaft ends, bushes and for the mounting of single-hole, bush-mounted, shaft-operated electronic components

CORRIGENDUM 2

Old titles

Fixed capacitors for use in electronic equipment – Preferred dimensions of shaft ends, bushes and for the mounting of single-hole, bush-mounted, shaft-operated electronic components (second edition, 2006-11)

and

Fixed capacitors and resistors for use in electronic equipment – Preferred dimensions of shaft ends, bushes and for the mounting of single-hole, bush-mounted, shaft-operated electronic components

(Corrigendum 1, May 2007)

New title

Replace the titles indicated above, on the cover page, the title page, page 3 and page 5, by the following new title:

Capacitors and resistors for use in electronic equipment – Preferred dimensions of shaft ends, bushes and for the mounting of single-hole, bush-mounted, shaft-operated electronic components

This Corrigendum 2 cancels and replaces Corrigendum 1, published in May 2007.
