## 18 Stability and mechanical hazards

### Subclause 18.1

*Add the following new paragraph:*

The machine shall be equipped with means to fix anti-kickback devices (e.g. adjustable end stops) at the fence or at the extension table. Such means may be fixing holes of 12 mm diameter maximum.

The anti-kickback devices shall be capable of withstanding a static force of 300 N in the direction of kickback without permanent damage.

The position of such devices shall be adjustable on both sides of the spindle up to a distance equal to double the fence length.
