Cylindrical gears — Code of inspection practice —

Part 4: Recommendations relative to surface texture and tooth contact pattern checking

TECHNICAL CORRIGENDUM 1

Engrenages cylindriques — Code pratique de réception — Partie 4: Recommandations relatives à la rugosité de surface et au contrôle de la marque de portée

RECTIFICATIF TECHNIQUE 1

Technical Corrigendum 1 to Technical Report ISO/TR 10064-4:1998 was prepared by Technical Committee ISO/TC 60, Gears.

Title page, Foreword, page 1

Delete “Cylindrical gears” from the title of ISO/TR 10064-4, thereby changing it to the following:

Code of inspection practice — Part 4: Recommendations relative to surface texture and tooth contact pattern checking

This is to accommodate the coverage of gears other than cylindrical in new parts of ISO/TR 10064.
