Determination of uncertainty for volume measurements made using the gravimetric method

TECHNICAL CORRIGENDUM 1

Détermination de l'incertitude de mesure pour les mesurages volumétriques effectués au moyen de la méthode gravimétrique

RECTIFICATIF TECHNIQUE 1

Technical Corrigendum 1 to ISO/TR 20461:2000 was prepared by Technical Committee ISO/TC 48, *Laboratory equipment*, Subcommittee SC 6, *Laboratory and volumetric ware*.

Page 2, Clause 2, Equation (4)

Below Equation (4), replace the values of constants a_2 and a_4 with the following:

a_2 is equal to $-8,523\ 829 \times 10^{-3}\ ^\circ\text{C}^{-2}\ \text{kg/m}^3$;

a_4 is equal to $-3,821\ 216 \times 10^{-7}\ ^\circ\text{C}^{-4}\ \text{kg/m}^3$.

Page 3, Clause 2, Equation (5)

Above Equation (5), add the following Note:

NOTE The density of water can also be calculated using the density formula given in Reference [10].

Page 5, Clause 4, Equation (19)

In Equation (19), replace “ 10^{-8} ” with “ -10^{-8} ” to give the following:

$$c_{t_d} = \frac{\partial F}{\partial t_d} \approx -10^{-8} \left(\frac{\text{kg}}{\text{m}^3 \text{K}} \right)^{-1} \times m \quad (19)$$

Page 6, Clause 4, Equation (25)

In Equation (25), replace “K” with “hPa” to give the following:

$$c_{p_a} = \frac{\partial F}{\partial p_a} \approx 1.2 \times 10^{-9} \left(\frac{\text{kg}}{\text{m}^3 \text{hPa}} \right)^{-1} \times m \quad (25)$$

Page 6, Clause 5

In the first and second paragraphs, replace “ISO 8655-6:—” with “ISO 8655-6:2002”.

Page 10, Bibliography

Replace References [1] and [2] with the following:

- [1] ISO/IEC Guide 98-3, *Uncertainty of measurement — Part 3: Guide to the expression of uncertainty in measurement (GUM:1995)*
- [2] ISO 8655-6:2002, *Piston-operated volumetric apparatus — Part 6: Gravimetric methods for the determination of measurement error*

Add the following reference:

- [10] TANAKA, M., GIRARD, G., DAVIS, R., PEUTO, A., BIGNELL, N. Recommended table for the density of water between 0 °C and 40 °C based on recent experimental reports. *Metrologia*, **38**(4), 2001, pp. 301-309

Delete the reference to Footnote 1) and the footnote “To be published.”

Renumber the reference to Footnote 2) and the footnote itself to Footnote 1).
