Do we have hair on our heads as a tree
05:20:16 pm

No
05:20:23 pm

Irrelevant
05:20:30 pm

The only hairs that matter are those connected to piloetectors
05:20:52 pm

Those are branches I'm talking flowers and trees
05:21:31 pm

More complicated than that
05:22:03 pm

Why long hair on women heads not shoulders
05:22:12 pm

Everything g has a different sexual presentation developed as a competitive way

05:22:20 pm

The underground root is the brain and the rest is about reproduction

05:22:37 pm

Probably more revolved than us

05:22:54 pm

evolved

05:22:57 pm

Plant embryology is fascinating but haven't read too much yet

05:23:28 pm

I'm aware , isn't it fun

05:23:35 pm

Suspect it's a Y chromosome thing related to hair

05:23:42 pm

And maybe just related to sun protection on men for hunting and foraging

05:24:05 pm

In women no idea

05:24:09 pm

To length but all humans have hair on head

05:24:10 pm

Don't close you eyes yet

05:24:38 pm

oC

Suspect hair was meant to protect the face in women

05:25:01 pm

And cover the breasts to protect food source for babies

05:25:17 pm

MW

Would have been easier to havr it on chest

05:25:54 pm

oC

No then it's hard babies to eat

05:26:11 pm

Men worked out in the sun and didn't wear clothes so they have hair everywhere to protect skin

05:26:26 pm

MW

Look at male and females avocado trees . Weird

05:26:33 pm

oC

Have you seen the male and female trees in the Seychelles very scary and gross they have sexual organs

05:26:56 pm

MW

Yup

05:27:05 pm

oC

Those must be LESS EVOLVED

05:27:36 pm

too vulnerable to have sexuality so stuck in one place way better to have a million vaginas or flowers

05:27:59 pm

That's why forests are awesome and like connected tree cities

05:29:33 pm

Forests have an underground internet made of roots it is amazing. Everyone thinks it is the sun and competition for sun that drives population but it's all in the roots

05:30:19 pm

Crazy

05:30:21 pm

Ok am taking my nieces and nephews to church.

05:31:24 pm

So cute.

05:31:39 pm

MW

Why do flax seeds have the shape of sperm . No water travel

09:21:35 pm

Plants in space ? Gravity?

09:22:11 pm

Camouflage,

09:23:17 pm

✓ Sent

Probably camo

Distraction from the real stuff

09:31:15 pm

Why do ppl wear jewelry

09:34:37 pm
