Importance: Normal

Hi [REDACTED] - I hope you are having a nice week! As I am preparing for the briefing - I have been working on a referral list. I called the below and am a bit confused and concerned. The first one is not a working number and the last referral is for Immigration; and this is a sex trafficking case. I have been in contact with Florida Crime Compensation and they have told me there are various NOVA agencies that provide trauma focused services throughout Florida.

As this is a sensitive case I have been instructed by Executive Management that victims should be referred to agencies that are trauma focused and vetted.

Please let me know if you have any other appropriate referrals that I can include for the briefing.

Thanks again for your help!

Subject: Epstein vic - [REDACTED]

Good morning,

[REDACTED] - below are the agencies I have been referring. Let me know if you are calling or if you want me to. I don't mind, I just know some of the victims don't like multiple people calling.

Thanks,

Catholic Charities
561.345.3000

Palm Beach County Victim Services
561.355.2418

International Rescue Committee
305.640.9881

Hi [REDACTED] - do you know if she is coming on Thursday?

Hi [REDACTED] - I can call if you would like me too. Are there specific referrals that you have been giving to these victims? If so -

If you give that information I can reach out to her. Let me know what is easiest.

Thanks

[REDACTED]

Hi ladies,

I received a text from [REDACTED] who is an Epstein vic. Her number is [REDACTED] She has expressed that the suicide and the reporters constantly going to her house have really affected her and she is in need of counseling services. Could one of you reach out to her? She is located in [REDACTED]

Give me a call if you want to chat about it.

Thanks,

[REDACTED]
