Kristen,

Thanks for reaching out. As you may know, all of the AUSAs who handled the Epstein case are no longer with the Office. The sole remaining member of the Maxwell case team does not have a recollection of this email, but the data in this case was voluminous and the trial in that case took place four years ago.

To the extent the FBI is requesting that our Office query the Relativity database for the Epstein case, please have an appropriate person reach out to Deputy United States Attorney Sean Buckley to discuss.

All the best,

Rob

Subject: Epstein emails in Relativity

Good morning Rob,

Please see link below to a recent Washington Post article referencing an email from 2011 that was just publicly released. The email was allegedly from Epstein to Maxwell and discussed Trump.

I spoke with the former case agent and she is not familiar with this email but stated all emails in this case were maintained in Relativity.

[REDACTED]

Any help you can provide in searching for or responding to questions regarding the case team's knowledge of this email would be greatly appreciated.

Thanks,
