Subject: privileged and confidential

The press versions of sex slave sex ring, underage sex ♦=A0 . are all fictions meant to sell newspapers. nothing more.=C2♦ Mr Epstein never testified, never, , his lawyers never explained the facts they merely argues whether the law applied. =C2♦ Why, Jeffrey never left his house, he did not troll on the internet. he did not drive around looking for girls. Being what some might call a health nut, He has never had a drink or drug. =e did 90 minutes of yoga every day or resistance training, he would =hen shower , and begin his day, That day inevitably began with a massage. He would begin his work by getting on the massage table, face down BEFORE anyone was in the room, and begin making his daily calls. A massage person, recruited from either the local massage places. masseuses he knew or friends of a masseuse =would enter the dimly lit massage room and begin working on his calves ♦=A0 before he even said hello, He would not know who they were = he might ask their name, and who brought them, often their friends =aited downstairs.. the ages of the daily massage person ranged from young =o over 60. the vast majority in their twenties and early thirties.in= The massage pads would show many if not all , asking to see when he was free so that they could return, they would suggest a friend=. they all were told no underage girls. in fact the police report that describes the first girl who was in reality fourteen telling the police, she said she was 18. in her words, she said otherwise she =would not have been able to get in the house. . in her words, =ot his.? not one witness not one suggested that he asked for underage =girls. The idea is ludicrous. . The local strippers that willingly came as well as the girls who worked in the local massage parlors came= many labeled as " victims " . Jane doe 1 , daughter =f a local prostitute ran a shower with girl biz and advertised it. danced in the local strip club, admittedly some had less of a typical profession or experience. each and every one were brought by one of =heir friends or acquaintances. many who brought their friends including the Jane does in questions , brought their friends to the house. The horrifying experiences that they described seemed not to be so horrifying as to prevent them from bringing their best friends. When the stories of the girl are compared, IT should have raised concerns that the language of each was almost verbatim. rehearsed amongst themselves. Jeffrey was never alone in the house. there was always =aff , always. not one time did any girl complain, suggest an i=propriety .. NOT one time.
