Good Afternoon Mr. Kahn,

After discussing with the previous AYH GM, our EVP of =perations Kenny Jones, and researching documents and correspondence =egarding P-dock:

It is our understanding =hat the owners of P-dock (AYH only manages the dock) do not wish to =ave the LSJ barge return to the dock after the refurbishment. The =oncern is that dock damage has/could result to P-dock by the LSJ barge =ue to it being oversized and overweight for the dock design.

As managers of P-dock, IGY/AYH are compelled =o follow the owners wishes, and so have reassigned the barge to D-dock =here it berths now. If LSJ were to secure the permission of the =-dock owner to return the barge to P-dock, AYH would be happy to make =he slip reassignment.

Please let me know =f you would like the P-dock owners contact information.

Best,

Mike
