Dear Jeffrey!

I have just received my new supercomputer and I want to say thank you million times more for being so kind and supportive to me!

I've been thinking about Russian numbers today and the fact that you can't remember the number 8 - the pronunciation is very similar to the word "awesome". Just put the letter "V" plus "Awesome" and it'll result in a Russian number 8.

The best way to remember it is to know that this is what Nastia thinks you are (not number 8, of course)!

I hope this will put a little smile on your face.

Enjoy your time wherever you are.

Best,
