Jeffrey,
is it OK to fly the Boeing to Jacksonville to have aircraft in position for maintenance? I will not have them start until you have negotiated with Qatar, plane needs to at facility by January 15th, since we'll be flying GII it would make sense to have the Boeing in position and ready to start work when we give flight star the go ahead,.
is this approved/
thx
Larry

I am fine with [REDACTED] on the Africa trip, if you agree, and leave Dave at home,.
