Restoration Hardware does not have their upholstered outdoor furniture collection in any of the showrooms until spring.

I have so far been unsuccessful in finding anywhere near the city that has the Lane Venture Weathermaster outdoor upholstered furniture yet as it's a brand new product. I found one showroom in Ft.Lauderdale that only has an armchair from the collection and she says it's very comfortable and is very impressed by it. I will keep trying to find a place outside the city that might have something in their showroom, but since it's a new product, I have a feeling most places up north won't get anything new for outdoor until spring.
