Lesley,

Here I am again as you said Jeffrey might be ready to purchase some antiques in September. I am the one who sent you photos a while back and certainly the person who can find some unusual things for him if he will allow me to work with him.

I am a designer of 37 years (architectural space planning and decoration) and have extreme knowledge of early furnishings and art objects. If he is looking for anything in particular, I can find it for him in record time. I know all of the dealers, not only in NY but in other states and quite a few in Europe. I comb the flea markets too and Brimfield.

Tell Jeffrey I speak to Mark often. Mark is still Mark.

My husband Jim would love to meet Jeffrey. He and Dr. Samah Baki have designed the newest EEG monitor (tiny and efficient) with disposable headpieces. They have gotten FDA approval and the company called BioSignal Group is about to take off. I know Jeffrey is interested in new technology so if he wants to speak to Jim, Jim's phone number is [REDACTED]. (www.biosignalgroup.com). Tell him to look them up.

Hope to hear from you, Lesley, or Jeffrey.

Best,

Annita Henson
