Jeffrey,

how are you?

My internal, empirically accurate, probability estimator says that the chances of you investing/being involved in the company at this stage are roughly minus infinity, hence I have a somewhat 'odd' request.

Essentially I need a replacement for you, specifically somebody who:

- a) knows finance
- b) has an unorthodox view on finance/some out of the box thinking
- c) has some spare time & is willing to help
- d) can invest

Any leads?

Thanks,
V
