Hi Larry,

It looks like our offices are having trouble finding a date to meet. I also heard that you'll be joining us for dinner on the 30th with Jeffrey and Reid. Since Jeffrey and Reid are both involved in BitCoin stuff as is Danny Hillis who might join us, I'm pretty sure we'll cover most of the things that I was hoping to talk to you about in the meeting. Why don't we see how the conversation goes on the 30th and set something up if you're interested in talking further about anything.

Very much looking forward to meeting you!

- Joi
