Dear Mrs. deJongh,

In meeting with the Superintendent, we have some additional questions related to the competition:

1. Can we please see the draft of how you and Mr. Epstein want the money spent - spelled out as materials, supplies, travel, etc - even before the check arrives? This will help our office to be more precise with meeting goals.

2. Then, please have the check written to Department of Education, Office of the Insular Superintendent, St. Thomas/St. John School District. Please have the Memo line reference the purpose of the donation.

3. Would Mr. Epstein consider including the Technology part of STEM in the competition, so students with great technology projects may also qualify for a tablet? (Engineering is already blended in with Mathematics.)

There is a lot of value in including all aspects of STEM in the competition, especially because the competition for tablets is a part of the STEM Fair.

4. Would Mr. Epstein consider including middle school students in the competition for tablets? I know he prefers high school only, but I do want to ask.

Thank you,

Michael Harrigan
Deputy Superintendent
