To u at 1049am. Separation doc has execution version. But red line. So yes has signature pages as actual doc will be but NOT the doc to execute.

I called jothan s. Spoke about the ucc issue. John s is dealing with bank directly as its a brg loan.

When I asked if I should come over to sign docs about 230. He back peddled - voice changed - said not sure - let me call ellis see what's going on.

So am I being set up for a retrade - again ?

Or is landrys deal going sideways - and landryes is retrading barry ?
