Noon is confirmed,
Just to confirm, I'll bring Dave and Billy on GIV.
I could use both of them this week since GIIB may close and I'll need to fly to closing and Billy could help with fan balance.
Is this ok ?

We found the outflow valves sticks due to overspray paint. Mostly from full open to close. It's best to address the outflow valve cleaning while in Teterboro this week. Avionics is going to Accomplish their functional checks of pressurization controller tonight.

What is your estimated departure time for tomorrow? So I can make sure plane is ready.

Thx
Larry
