F,
This water is amazing. I've had 3 cases now (they recommend 3 waters a day - I don't travel with it, so I only use it at home). Athletes all over the world order it.

Also, the company has created therapeutics using related technologies (to those used to process the water) to treat MS, Alzheimer's, and Parkinson's - all with strong results (a number of articles just came out in peer-reviewed journals).

Anyhow, you like stuff that makes you feel better. This water is pretty interesting. It took 5 days or 3 waters a day for me to feel the difference. Built with each day after that.

Thanks again! See you soon!

XOXO
