What would you like to do with the **old mattress** in Cabana 1 that will be replaced.
I am not sure if it is perhaps of better quality than the one in Sams place. I could ask Daphne to check so that we get rid of the worst. Storage or give away?

Also the **new mattress** comes with the base. It was basically the same price so I let them include it. Would you like us to keep it in storage as Cabana 1 currently has the bed frame.
