Subject: Evol. Dynamics website

Hi,
Martin Nowak's 3 top listings on google come from his name on the Evol. Dynamics website. I am waiting for the chief admin person there to get your name and links back on their site and on several pages.

I've also asked several other scientists to do the same but have not heard back from them.

Is there anyone you know who would be willing to host a link to your websites? this is critically helpful.
