Thoughts? I just don't think I'd EVER be a priority because he hasn't shown any ability to get over history or find a way to emotionally cope with the future... Grandfather's funeral, whole family around today and he sends me this...

Hey,

I'm sorry I was in such a bummed out mood last night. The load of everything around me has been so intense and seems to just get bigger. Yesterday was super sad losing Manhattan. :(It's still soon for [REDACTED] and that causes me stress, I have the awful insanity of [REDACTED], how that is going to effect [REDACTED] terrifies me every minute, and now I have my sister living with me.

I don't think I'm being very fair to you as well and it is weighing me down. I want to have time for you but at the end of each day I just want to pass out. And then I don't sleep. It's a wonderful routine. ;)

We know how much we like each other. But I am just not able to do a real relationship right now. Would you be up for going back a step to just dating? We would see each other on weekends when we can and focus it on fun stuff. Bringing you into my drama can't be fun for you and it isn't healthy for me either. I could tell you were sad that you couldn't join me in Boulder, but honestly I don't think I could handle staying relaxed with you in town.

Thoughts? xoxo

I hope you still come to LA. I will dedicate Sunday to you so that we have some quality time together. :)
