Subject: .NET site update

Hi Jeffrey,

I'm drafting the content for the new .NET site. It will be based on your support of AI intelligence. Pages will be (subject to Tyler's edits):

&n=sp;

- * Overview
- * MIT AI Lab
- * OpenCog
- * Joscha Bach

I would like to call each of the above tomorrow to ask about what you were/are involved with. Is that OK?

also, are there any other AI projects that you would like me to add?

Thanks,
