Thanks. This will get very public and very nasty very fast. We're going to cease the payment of rent on the ground lease invoking the defense of the "first to breach doctrine." That, in turn, will put them in monetary default on the wico loan to bppr. They'll never get the funding for the dock extension and they'll never get the concession they need from us to build the new docks since they must, by definition, use our riperean rights. It'll be one giant interminable stalemate which means simply that the status quo will continue to obtain interminably.

No. Angrier. We're going to sue the government under the terms of the lease. They have affirmative support requirements, etc., under which they have been in default for years. We have continued to document and notice them as such in order to toll any statute. Time to stop screwing around. Since we have nothing further to lose, we're going full out and very public.
