Subject: Zorro frame

This was the last sample the frame guy gave [REDACTED] and [REDACTED] before they left. I got the framers info from [REDACTED]; he said the total for stretching and framing the canvas using the white molding would be \$2462 with tax and will take about 10 days to complete. This is the closest thing he had to matching the molding around the door.
Would you like to proceed with this frame?
