Mr Epstein we had many traps down while you were away , In the Kitchen and the Security office I did not see any sign of a mouse no dropping or sightings. We will keep on it they are very hard to catch . I will have the exterminator come in to check the problem. The problem is the apartment house#3 east 71 street is doing construction on the shared west wall , right below the wall in the passage way is where the building stores all the rubbish this attracts the rodents in the summer.
