The trainer is coming tomorrow at 6.15pm. She likes to see the animal in her home but I think you may prefer me to go to an apartment for the session? Let me know?

I can't tell you how she has improved in the last 36 hours, I think it is due to a strict routine and lots of exercise in the park instead of only on the streets. She is woken at 7am every morning and is in the park by 7.15. Evenings also have an order and strict routine.
