Subject: life insurance

although i do not know how trusts read i analyzed the cost of the =5,000,000 policy we discussed renewing until we can obtain cheaper =ates.

The analysis shows that the cost per million of insurance on the =5,000,000 policy is very high as compared to \$25,000,000 policies.

\$19,125 for \$5,000,000 = \$3,825 cost per \$1,000,000 of insurance

\$36,075 for \$25,000,000 = \$1,443 cost per \$1,000,000 of insurance

i called genamerica the insurer for \$25,000,000 policies and was able to =btain another extension from april 20, 2011 expiration until may 16, =011

please advise
