Subject: Re:

I =now it works on macs and has strong apple =upport.

the audio converters are AAA first =lass

and it will work stand alone with =ut a computer as well

I will review other =ptions

you seemed to really like this =ystem

<http://www.smarthomeusa.com/ShopByManufacturer/Channel-Vision/It=m/A4623R/>

but think we need to get John =nd Nick into the mix He needs to see the blue =rints

JUST GUIDE ME BOSS BUT =ETRIC HALO IS REALLY REALLY GREAT =ARDWARE

thank =ou

Still working at =tc

plan is to be on LSJ am wed could we =o a brief meeting to make sure I am doing all you ask of =e

?

thx

sd

I left a print-out for your review on =ou desk yesterday.

The plan as of now is this crestron system you are setting up now at lsj..as I was told by John and
=ick????.. I will send you a link to the hardware I would like you to =onsider for the club 54 room @ 71st

I also need your input on weather the crestron =ystem is what you want @ 71st

I reviewed =llot of hardware and I am submitting for your one that is the best =ounding audio converter
around. And is built for MACS

<http://www.mhsecure.com/v5mm/LIO-8.html>

*IR Remote for LIO-8/ULN-8

We have a special treat for LIO-8 and =LN-8 users; your front panel has an infrared receiver installed,
and =5.4 activates it.

You can map the buttons from your Apple remote (or any =ther compatible remote) to control many
elements of the LIO-8 and ULN-8 =ront panels.

With the new Infrared remote support, you can control =nput and output gains, control modes and the
Monitor Controller level =nd mute from across the room, without even having a computer attached. =f your computer is
attached and MIO Console is running, you can even =elect the Monitor Control input source and output destination.

Follow the links below to see more new =eatures...
