hi jeffrey,

..i've talked today to garry kerney and he told me=that they are going to put that painting on the ceiling and you want me to=paint the rest of the ceiling matching that dark blue.

i was thinking t=day at that, and i think it would be better if they put the painting on =he ceiling first and then i will do the rest of the ceiling.. the blue on =he painting is a little different in different parts of the painting so wo=ld be better having the painting on the ceiling..i can do a better match..=the light is different too.

what do you think, is that possi=le?

thank you,
