Jeffrey,

Teterboro weather:

8am - Noon, snow in the morning, 1 - 3 inches of accumulation, tu=ning to freezing drizzle, 300 overcast and 1/2 mile visibility,. =y 1pm, warm front moving into New York area turning snow into freezin= rain, and by 5pm only low ceilings and rain,.

Our estimated arrival of 6:30pm is decent at this time, forec=st calling for 500 broken, 1500 overcast and 3 mile visibility af=er 5pm, for Teterboro,.

I will have better forecast at 10am tomorrow as warm front moves into N= area,. I will keep you posted.

thanks

Larry
