Jeffrey,

George says he has a buyer for the S76. it is a deal with a broker from Sikorsky that has on International buyer that wants a C++ already completed. NOT official yet but wanted you to know.

Buyer is paying 12.450M according to Reenstra.

George and this broker split 150K commission and you Net 12.3M for S76.

He said they are going to look at the S76 at Keystone this afternoon since they have the helicopter.
your thoughts?

Larry
