Subject: Universal Remote

Jeffrey

I programmed the Universal remote,

-I know the "TV" button will work any Samsung TV, since it worked the Samsung TV in Kitchen.

-There are several codes for Marantz receiver, which I programmed the "Audio" upper right button. That's a guess if that works.

It also offered an "Apple" code, in which I programmed the SAT/CBL button, this may only turn your Apple TV on/off. Surfing will have to be done on Apple remote swipe.

Let me know if it works,

if not, I'll address when I return to PBI this week, when I'm able to access the equipment and reprogram the Marantz code on sight.

Thx
Larry
