</=iv>

Good morning Jeffrey,

=/div>

The carpet will be here in two weeks but the carpet company will be closed for the holidays until January 4th. I have scheduled the installation for that week and I am getting a quote from Viking Movers to move the furniture during installation.

In the mean time, I think we should get the painting done before the new carpet is installed. The total cost to caulk and paint the entire interior of the office is \$7,975. Please let me know if you approve of this cost so I can get First Resort to start ASAP.

With warm regards,

Cecile
