That does not worry me at all. But we should really set up a skype conversation with him, one of these days!

screaming is his cultural , form over substance, attempt. sorry,, he is frustrated , as he was always one step ahead , and then the force of his scream drove him two steps back, engage him, he is thoughtful on the issues, and feel free to increase your volume

how are you doing? Anything I can do for you?

Bests,

Joscha
