give =o rich,, not me

On Apr 29, 2011, at 5:07 PM, Scott Denett =rote:

Jeffrey,

Citrix has been unplugged for 14 =ays and overall I am pleased, with the Major exception being the =igration of quickbooks.

Quickbooks files are currently being transferred through the mac =ervers at FTC and HBRK by hand.

Internally at HBRK what I thought was a working solution, a mac =pening files through windows emulation software from a mac server, does =ot work beyond my basic after hours testing that I have performed many =imes, but in a practical work day it does not hold up. File corruption =nd other headaches have forced me to choose a different path and =ast.

Also I need an approved =mount to be spent at tekserve to buy very basic things like battery =ack up units, redundancy drives, and some tech software and licensees =hat are urgently needed. My request is for \$1,000 cap. no more to be =pent without additional approval by you. I need gear for this weekend =nd HBRK has an open account at tekserve.
