Subject: Re:

Good morning:

Landscape Summary for Past Week
(May 2nd - May 8th)

- removed seagrape from northeastern coast.
- finished prepping Master Bedroom for walls, dirt, and ultimately plants.
- cleaned up Entrybasked, replanted bouganvilla.
- continued clearing out nursery, staging areas to be planted.
- filled Planters in Main Compound
- Began filling rock terrace on the western side of library
- Began prepping Library planters to be filled.

As for the question of the wild grass seed mixed with the hydroseed.
Yes! We do mix the wild seed for certain areas. We could use some new seed, since the germination rates aren't been great, on the several bags of seed that was here when I came.

Today Monday May 9th,

I will finish making different color stakes to mark the proposed location of coconuts and Bottle palms.
Gary Kearny and I will place them where you told us you wanted trees, and then we will send photos for your approval.

Thank You,
Igala
