Yes. Carlos noticed it right away and called me. Me & Guy had a little back and forth with each other about the situation and I took all the keys he had for any LSJ vehicles.

It was during the time when he was getting ready to go clean out the engine room for Coscoe.

The driver side trunk of the caravan is dented in from an accident that Guy can't remember happened. The Caravan was filled with parts for Big N that he was going to drop off the next morning to SBDD which he did but when it was returned Carlos noticed the truck was damaged.

The scrape along the side of the Caravan is from a car speeding down Cassi Hill that almost ran me and the girls off the road in April.
