Subject: flights

The time building programs I found are quite expensive, require another instructor on board and you can only fly when and where they tell you.

200hrs in Seminole is 50K at ATP: <http://www.atpflightschool.com/programs/time-building/>

I think it makes more sense to rent a small plane and just fly cross country. Plus, it should be less expensive.

Let me know what it is you mean by 'signing up for 200hrs'
