Can you ask John if I can have his email...I am sure I have it at the office=...and/or just forward this to him.

John:

From Five Corners in Queens to endless streets in Naples, you have come a l=ng way baby. What a mature, loving and accomplished portait of a city= it's people and their love of music. The lyrics, melodies and voices are a=l sensational. But as you say....it's the passion that makes these people a=d your film sing in perfect pitch. Without any plot you mangage to ta=e the audience on a magical trip of a collage of sights and sounds and keep=us glued to the screen. Bravo to you and your beloved Naples. Y=ur friend...and loyal fan. xoxo Peggy

Will do anything to help you in New York.
