Subject: Re:

It may be associated to her but not her writing as it is not her language.=but her the title suggests that she did talk to Terry as I said to Terry no= of the letters had come from her directly .. I am not sure doing nothing i= an option either..I imagine that it was probably very difficult for =er with the press and knowing her probably very devastating - I can o=ly imagine the lies V would have told about her as they were about me= Perhaps you could write back and suggest that she comes over to the states=to talk through what her problems are and say there is no issue with her be=ng here or tell her to call...I mean apart from anything her fears are un g=ounded and some of her skewed issues can be put to rest..+ in talking to he= then we would know for sure it is her
