What I need to hang my hat on is the following – I only need this one piece and I will then go quietly into the sunset.. What year actually did u meet V – I am sure her version of dates are wrong it was just to be able to say she was 15 – i'm going to guess summer August/ Sept '99 or 2000 – just that piece alone will allow me to say something that will along w/all the other information will discredit her stories..if it was '98 then it will have been after her b'day as there was no party for her..she threw that in to add 'legitimacy' to her fraudulent claim..did she have a fake ID to work at Marlargo?? Can you work full time at 15 – she was working full time that much I do remember When did she stop working at M – if we could get her employment record that would be good – she told me she was a masseuse..assume now that that was a lie too to add to her many..

What lies did she tell on her immigration form to australia – is that gettable? Is that a public document? Can darren tell me anything on her dates?
