Subject: LSJ equipment update
Attachments: lsjtractor1.jpeg

Jeffrey,

This is the Terex Back Hoe/bucket Tractor from "Discount Equipmen=" in Palm Beach \$44,900.00 with 1567 hours, I like this dealer, They=20 have three locations, West Palm Beach, Orlando and Tampa, large operat=on with a lot of equipment.

They can provide one stop shopping for our needs, Light towers, =an lift and tractors, among other items. I am dealing direct with the President of the company, Rick Walker, he wants a relationship with us=and can provide parts when needed along with mechanics when equipment=20 requires heavy repairs. Rick's equipment is attractively priced and service= well, however, cosmetically needs attention. if you require new=r equipment, I'll obtain comparable pricing for later model tractors.

-Rick's light towers are New, priced at \$7,547.00 each which are galvanized light poles. LSJ is requesting Thr=e towers. Standard 4 / 1000 Watt lights with Generator unit for power.

-4x4 self propelled Man lifts a very expensive, starting new at \$67,00= to \$112,000.00 Rick Walker has a nice used self propelled man lift for=20 \$20,175.00

I will consult with Brice for his opinion and Rich for final pricing o= total package for your approval.

The 2010 "Mini" Excavator Jack offered is priced at \$38,900.00

thank you,
Larry

\$44,900.00

Man lift self propelled, \$20,175.00
