OK, but you don't really answer my question :

I u=derstand the 65" for your bedroom + Wireless HDMI

Thanks for your a=swer

Hi Philippe,
Jeffrey's comments are as follows:

"no sonos in guest rooms,.. use=only mac for music storage, no server.. why can we not run new cables= I will need to hear the new speakers but sounds like a good idea"

Music

Sonos system is really the b=st because it can work wireless. We counted all the zone where you already h=d an audio access keypad. But in some bedrooms there are small hifi systems=

Do you al=o want to replace them by sonos. Or maybe later ?

Do we use the music stored on you ma= (it means it has to be on to listen to music, or do we propose a standalon= server (1500 €) ?

For the speakers, the small JBL that are on the floor in the=living room and office look very small for those rooms. Would you like us t= propose Floor standing speaker (like B&O, because good sound and good l=oking)

Since we can't run any new cable we'll try Wireless HDMI on the new projector.

So we will also have to change : DVD, Receiver= Screen (for a 16/9)

We'll use your ipad to control It

No question about the home theatre

Hello Mr. Laznowski

>>> I am writing on behalf of Mr. Jeffrey Epstein, a client of Alberto Pinto. He has an apartment in Paris which needs all of the electronic equipment updated; music system, projector, TVs, DVD players, etc..

>&g=> He is wondering if you would have time to come to his apartment today (22 Ave Foch) to have a look at everything and suggest new products for him. We will be leaving town tomorrow and would love to have someone come today if possible before he leaves. Please let me know if this is possible. Many thanks, Sarah
