Cool. Glad you guys liked each other.

David, I visited an injection molding plant yesterday in Shenzhen trying to find a place to do [REDACTED]. We should sync soon. Send bunny more detailed specs. I think we can help figure it out. Might involve tooling in Shenzhen and doing the injection molding in California. It's crazy but tech is higher in Shenzhen and maybe manufacturing cheaper in US. Funny flip.

Hi Jeffrey,

I had a great time meeting with you and talking about things. You are certainly one of the most interesting and fun people I have had the pleasure to spend time with. Hope we have a chance to do it again soon.

Hi Joi,

Thanks for introducing us. It was quite a mental journey - a great intellectual ride.

Very best regards,

David
