Dear Jeffrey,

Hello. Happy New Years. I trust this no=e finds you well and that you had a great holiday break.

A few updates:

* I spoke with Eva about your giving the donation for enhanced education =o my Center in Celina's name. She knew about it of course already. Eva wil= discuss it with Celina to see if she wants to come to the Center t= see what it is we do.

=nbsp; Thank you again so much. We will use it to support=education and training of residents, fellows,
&nbs=; hospital staff and com=unity physicians to give them the evidence base they need to know when to
=BR> =3B consider using integrative modalities with their patients. This also en=bles us to expand our weekly
&=bsp; fellowship course (including developing mor= online materials) to teach the teachers: to educate
&n=sp; residents,=attending and medical students in integrative approaches.

* Did you ever get a chance to look at the bacteriophage materials? Seem =romising for new a antibiotic class

* How did your conversation about placebos with Ted Kaptchuk go? I got a cryptic email from him that it seemed "fine"

* Did you get an opportunity when you met with the Templeton Fdt to talk with them or give them the materials about proposals from CCHH for a study on spirituality and healthcare outcomes?

* I know you saw Rony after me to treat your cholesterol and triglyceride and he was going to start you on a statin again. Let me know when you have gotten things stable with him and we can talk further about your health: I will ask him to send me notes (pending at the moment) to keep me in his loop also.

That's enough for now.

<R>Here's to a healthy, successful and enjoyable 2011.

Best,

Woody
