Subject: Big N: Barge cylinders

Big N=went down yesterday after they picked up the Canam, 2 Jet skies and the Poo= salt from Tropical.

The hydraulic cylinder on the Barge gate has fa=led and the gate won't open or close :(we need 2 new Hydraulic cylinders &=mp; Mounts for Big N.

Subject: <=>Barge cylinders

I just spoke with Jay of IRH

He has been in t=uch with the cylinder manufacturers they are investigating the option of ma=ing two new cylinder shells and mounts to send here for assembly with the i=ternal equipment we have already

Fact being that the= must be made, I inquired about increasing the diameter of the reunions to m=ke them less prone to failure. It is being investigated as we speak. I also=asked for expedited manufacturing as they were talking 2 to 3 weeks... &nbs=;- / which, it's my guess, is not acceptable

It's likely we may not hear anything till Monday, bu= if I do, I'll pass it on ASAP.
